Mike and Bud,

I should note an error in the earlier attached: in regards to the police direction/RCMP authority under the EA (p.8 of the memo), the memo mistakenly cites s.9 of the EA, which concerns a public welfare emergency, rather than the mirror provision in s.20, which concerns police direction/RCMP jurisdiction in a public order emergency.

Since the provisions mirror one another, this does not change the analysis or recommended questions. Nonetheless, I attach the amended copy with the correct provision, and I regret this error.

Again, I hope this is useful to you and any colleagues. I am, of course, at your disposal if helpful to further explain or clarify any aspect of the attached.

Mike and Bud,

I attach a document that I have prepared, outlining what I believe to be important questions for parliamentarians to consider before confirming the declaration of a public order emergency throughout Canada.

I have benefitted from conversations with others but I am responsible for any errors here. I intend to update this document from additional discussions/correspondence and as additional information is made available.

Nonetheless, with full humility, I hope this document can be useful to you and your ministers in presenting the reasoning and evidence supporting the declaration to Parliament.

Your friend,

Person
